

*BI  
cncl*

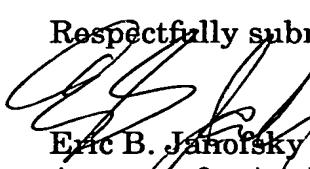

wherein said display driver means starts the selection of the display driving voltages in response to a display start signal having a delay time after the power control signal has supplied to said power source circuit.--

### REMARKS

Claims 27-32 have been added and are presented for examination. Claims 27-30 correspond to Claims 51-54 which have been constructively nonelected in parent Application Serial No. 08/267,103. Claims 1-26 have been cancelled without prejudice and disclaimer of subject matter.

In view of the foregoing amendments, Applicant requests favorable consideration and early passage to issue.

Respectfully submitted,

  
Eric B. Janofsky  
Attorney for Applicant
